Minister for Sport, Multiculturalism, Seniors and Veterans

Investing in new and existing sport infrastructure is vital to improving the health and wellbeing of NSW residents.

The NSW Government's \$100 million Greater Cities and Regional Sport Facility Fund is improving sport facilities and recreational spaces across the State.

It's not just an important boost for local economies and jobs, but also allows more people to participate in sport and active recreation.

The Greater Cities and Regional Sport Facility Fund is creating a sports infrastructure construction boom across the State as part of the NSW Government's multi-billion dollar infrastructure pipeline.

The Fund focuses on providing sport facilities that meet the needs and expectations of all members of the community.

Inclusive projects that encourage the participation of women and girls and people with a disability, such as new or upgraded unisex change rooms or the provision of disability access, are a priority of the Fund.

Round 1 of the program resulted in more than \$54 million awarded to 91 sporting bodies and councils for projects that are stimulating local economies, boosting employment and promoting healthy lifestyles across NSW.

In Round 2, up to \$46 million is available for grants between \$100,000 and \$1 million for new and upgraded sports facilities.

I strongly encourage organisations to apply for a grant and help build active communities across NSW.

About the Fund

The NSW Government recognises the critical role local sport infrastructure plays in keeping communities healthy, active and connected. The NSW Government has committed \$50 million to the Greater Cities Sport Facility Fund (Fund) over two-years. The Fund will assist eligible organisations to develop quality core sport infrastructure that will meet the current and future needs of the community.

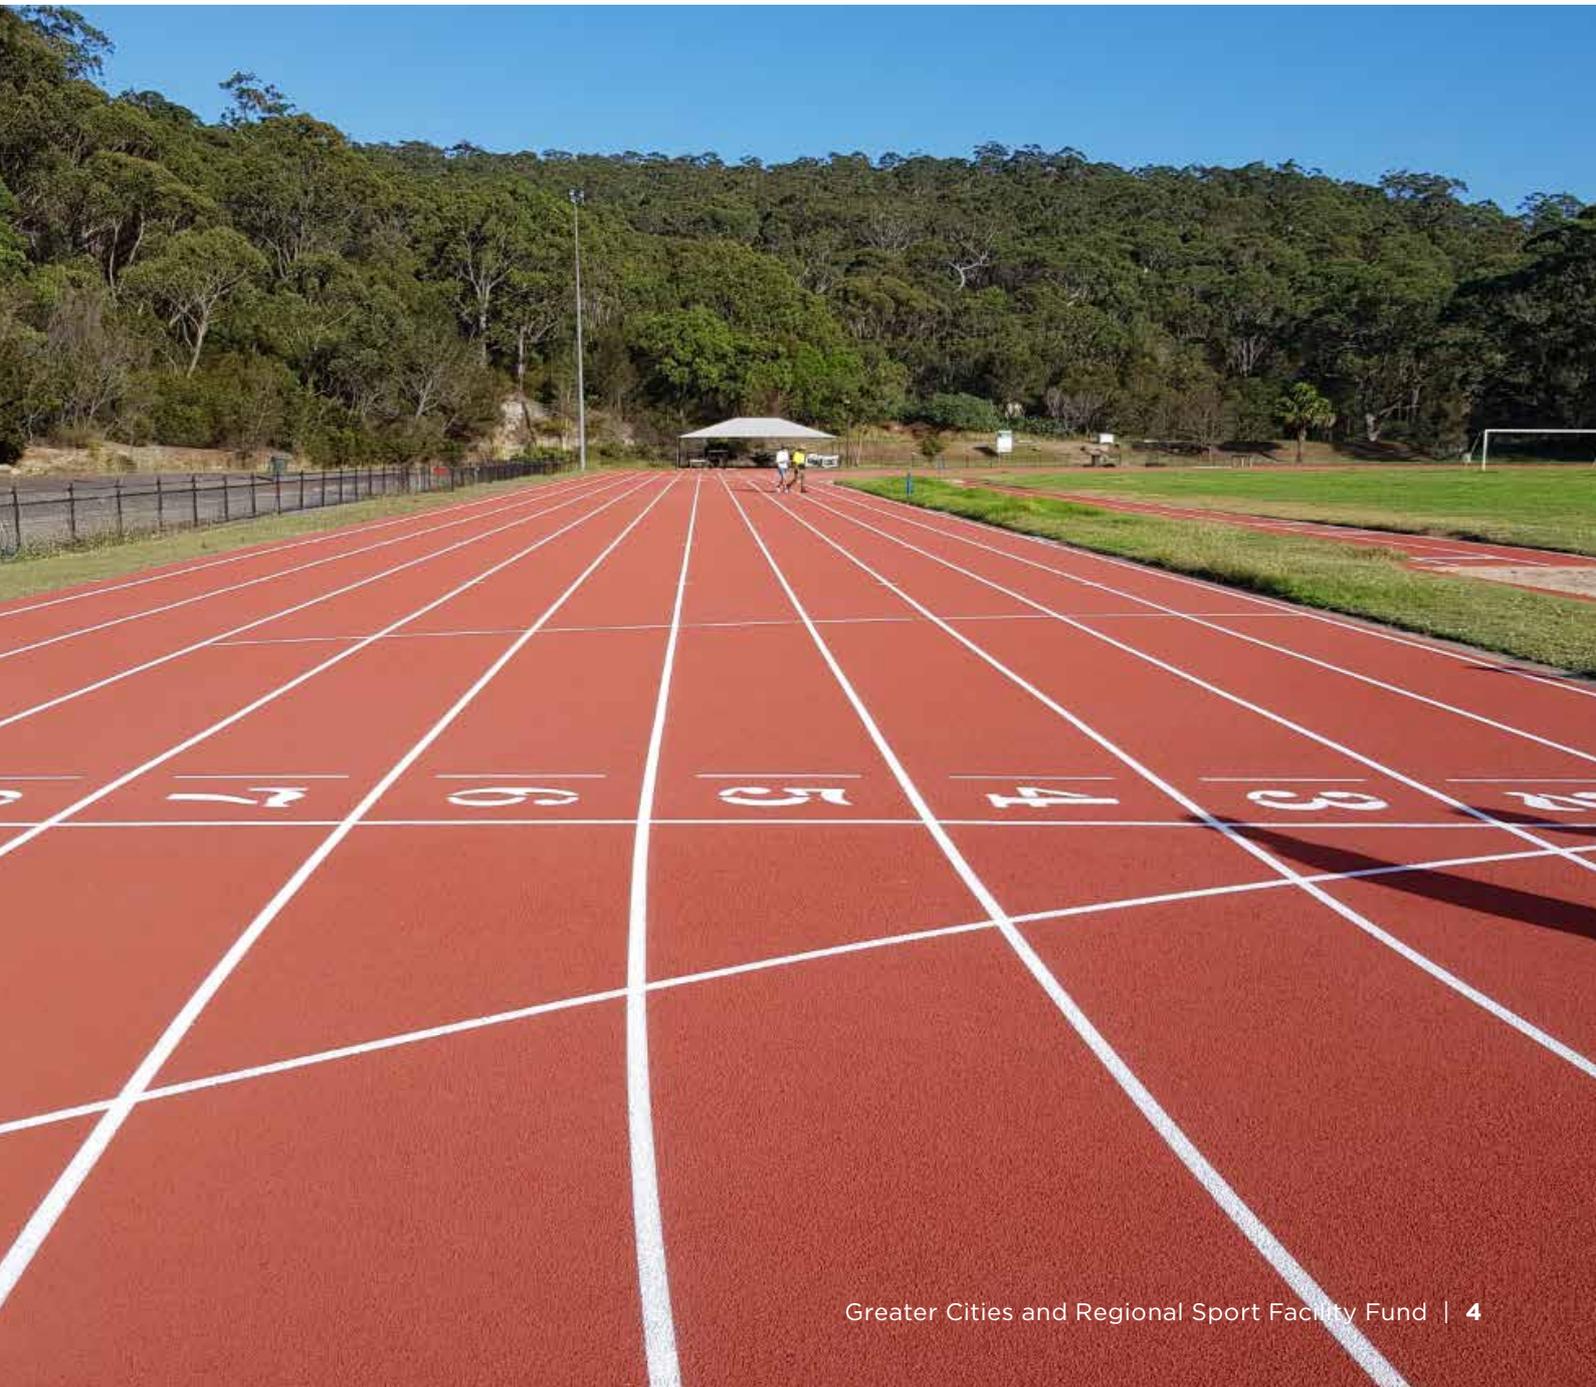

The Fund will create spaces and facilities that enable communities to enjoy and take part in sport. The Fund will support the development of well-designed and utilised new and improved sport infrastructure projects that can directly

impact and support participation and performance opportunities in sports at all levels. The Fund will focus on sporting facilities that deliver the best outcomes for the community. It will ensure that the best possible value for money is achieved.

Key objectives

The key objectives of the Fund are to:

- increase the number and type of sporting facilities;
- improve the standard of existing sporting facilities; and
- increase participation in sport.

Aim and focus

The Fund aims to increase participation in sport, through provision of universally designed, innovative and aspirational facilities that aim to be beyond compliant. The aim is to design and construct quality new sport facilities and upgrade and expand existing sport facilities for people and communities that need it most.

The Fund's focus is on universally designed and functional facilities for women and girls and

removing barriers for people with disability. The focus is on increasing capacity at well-utilised sport facilities and developing multi-purpose facilities that incorporate environmentally sustainable design. The focus also prioritises the ongoing management and maintenance of the facility to ensure it delivers a quality experience, including developing the most effective and efficient operating model and the programming of the facility.

Applications should focus on the highest standard of design that incorporates the principles below, where applicable:

Principles

Projects should demonstrate in their application industry best practice in project development, including but not limited to:

- demonstrated stakeholder engagement, consultation, co-design and support;
- project's capacity to impact on increased utilisation;
- project's capacity to provide increased participation for women and girls and people with disability, through fit-for-purpose, accessible and safe facilities and usage opportunities;
- project's focus on addressing a significant gap in current provision and/or demonstrated community need;
- the development or upgrading of multi-sport facilities, multi-use or multi-purpose facilities that are intended to be used for sport, but which can also be used for other events that contribute to the local community;
- partnerships and collaboration;
- all weather uplift (consideration of flood, drought, fire, sun safe and weather conditions that impact on utilisation);
- provision of quality social infrastructure including safe places that support community interaction;
- the role of green infrastructure and increasing the tree canopy, which support the Premier's Priorities;
- enhanced capacity for activation and socialisation; and
- alignment to the infrastructure strategy or plan of the relevant council, State Sporting Organisation, State Sporting Organisation for People with Disability and National Sporting Organisation.

December 2021 onwards	Funding agreements executed for successful projects
Projects to be completed before 30 June 2023.	

Office of Sport reserves the right to amend any of these dates during the Program, at its absolute discretion.

Funding availability

\$50 million has been allocated to the Fund over two years for sport facility projects.

The NSW Government is allocating up to \$21 million in 2021/2022 (Round 2).

The Greater Cities Sport Facility Fund provides grants between \$100,000 and \$1 million.

For projects costing \$1 million or more, a 25 percent financial co-contribution of the grant amount requested will be required. For all other projects, a financial co-contribution will be considered favourably.

All successful applicants must enter into a funding agreement with the Office of Sport. Grant payments will not be made until an executed funding agreement is in place and the Office of Sport will not be responsible for any project expenditure until this time. It is expected that projects will be completed before 30 June 2023.

Projects must commence construction within six months of funding being announced and be completed within the timeframe specified in the funding agreement. Funding approval may have specific conditions that have been determined throughout the assessment process. Applications should identify whether the proposed project may not proceed if the full grant amount requested is not approved. The Office of Sport reserves the right to recommend grant amounts that may differ from the amount requested in the application. Any such details will be specified in a written offer as well as the funding agreement.

Projects seeking funds of less than \$100,000 and/or projects that are not the focus of the Greater Cities Sport Facility Fund will be encouraged to consider an application under other grant programs, such as the Community Building Partnership Program or the Office of Responsible Gambling Infrastructure Grants.
